Morphus][GX920

COMMANDER RGB BACKLIT

FEEL THE BEST MECHANICAL SWITCH DESIGNED FOR GAMING

Mechanical Switches are perfectly tuned to the specific needs of gamers. Featuring optimized actuation points and a durability that surpasses the competition, these impressive switches enable you to execute your commands faster than before, for even longer.

When you press a key, the stem travels downwards, depressing the spring till the switch is activated and your action is actuated. Upon release, the spring bounces back to its original position, thus resetting the key.
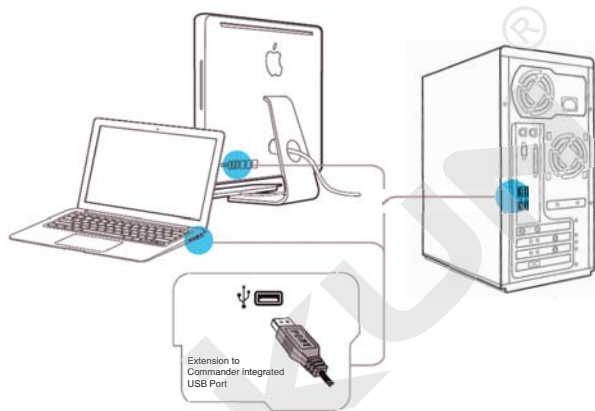

Start

Congratulation, there is no turning back

Every gamer needs a proper gaming kit. Think about getting yourself a gaming mouse and playing with your old keyboard. Or vice versa. Your gaming experience is going to be incomplete. Many products are available and they differ in build quality, performance, features, lighting and even clickiness. We have got it all.

Our Mechanical gaming keyboards are more durable, more comfortable and satisfying, full waterproof and they can make a gamer really feel pampered, come with LED backlighting which makes for great atmosphere when using the keyboard.

Because they have special physical key switches, built to determine when the key has been pressed a tactile and audible feedback of the key being pressed successfully. That's why gamers love our mechanical keyboards, which give you a tactile response to your actions.
Join us at our social network, you won't find better fit elsewhere, we take care our own and you will enjoy exclusive contents and giveaway, you also get the first look at Aikun newest Products and offering.
